

# Dubai HR Policies and Procedures Manual

## Expanded and structured version for AI Agent / RAG knowledge-base use

Issue date: 27 June 2026 | Language: English | Scope: Dubai, United Arab Emirates

Professional note: This guide is a foundation for internal policies and does not replace final legal review based on entity type, free zone, contract, nationality and work location.

### 1. AI Agent Usage Guide

This version is designed not only for human reading but also for indexing as a knowledge base. Content is split into policy cards with stable IDs such as HR-01 and metadata fields: sector, objective, scope, procedure, forms and references.

Suggested retrieval rule: split the document by HR-XX second-level headings. Treat each policy card as a chunk and store SRC references as filterable metadata.

Suggested agent answering rule: for every question, determine whether the user refers to government, private, semi-government or free-zone employment. If the sector is unclear, provide a comparison and state that final applicability depends on sector.

Hierarchy where sources conflict: official law, then executive regulation/resolution, then employment contract/appointment decision, then internal policy, then best practice.

The agent should not provide final legal opinions. Use safe wording: “Based on the available reference, the general rule is... The contract and competent authority should be checked before action.”

### 2. Scope and Sector Distinction

| Sector           | Working Definition                                                                                                                             | Application Rule                                                                        |
|------------------|------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------|
| Dubai Government | Entities governed by Dubai Government HR Law No. 8 of 2018 and amendments, including entities identified by applicability decrees/resolutions. | Use Dubai HR Law and Executive Council/DGHR decisions.                                  |
| Private Sector   | Private establishments in the UAE, considering free-zone procedural rules where relevant.                                                      | Use Federal UAE Labour Law, its Executive Regulations and MOHRE decisions.              |
| Semi-Government  | Companies or authorities owned by, affiliated to, or established by government legislation.                                                    | Check establishing law/articles: Dubai HR Law, Labour Law or a special bylaw may apply. |
| Free Zones       | May have portals, procedures and contract templates.                                                                                           | Federal labour rights remain a key reference unless a specific approved regime applies. |

### 3. Official Reference Matrix

| ID     | Reference                        | Official title                                                                                       | Use in this manual                                                                                                                         |
|--------|----------------------------------|------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------|
| SRC-01 | UAE Labour Law                   | Federal Decree-Law No. 33 of 2021 Regarding the Regulation of Employment Relationship and amendments | Private sector employment relationship: contracts, probation, working time, leave, discipline, termination, gratuity, anti-discrimination. |
| SRC-02 | UAE Labour Executive Regulations | Cabinet Resolution No. 1 of 2022 concerning Executive Regulations of Federal Decree-                 | Detailed employment contract rules, work permits, leave procedures, employment                                                             |

|        |                                  |                                                                                                                    |                                                                                                               |
|--------|----------------------------------|--------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------|
|        |                                  | Law No. 33 of 2021                                                                                                 | models, disciplinary and operational controls.                                                                |
| SRC-03 | Dubai Government HR Law          | Law No. 8 of 2018 Concerning Management of the Government of Dubai Human Resources and amendments                  | Main HR framework for Dubai Government entities governed by the Law.                                          |

## 4. Legal Framework Summary

| Area                              | Coverage                                                                                                                                                             | References               |
|-----------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------|
| UAE Labour Law                    | Regulates private-sector employment: contracts, probation, hours, leave, wages, discipline, termination and end-of-service benefits.                                 | SRC-01; SRC-02           |
| MOHRE Decisions                   | Cover WPS, work permits, safety, labour accommodation and operational compliance.                                                                                    | SRC-19; SRC-20           |
| Dubai Government Systems          | Regulate covered government employees: appointment, working time, leave, performance, benefits, discipline, grievances, transfer, learning, succession and telework. | SRC-03 to SRC-15; SRC-23 |
| Data Protection and Cybersecurity | Apply to employee data, systems, email, internet, AI and confidentiality.                                                                                            | SRC-16; SRC-17; SRC-18   |
| Pensions and Social Security      | Apply to UAE nationals and insured persons; distinct from expatriate gratuity.                                                                                       | SRC-22                   |

## 5. HR Policy Cards

### HR-01 - Recruitment and Talent Acquisition

| Field                     | Content                                                                                                                                                                              |
|---------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Policy ID                 | HR-01                                                                                                                                                                                |
| Keywords                  | Recruitment and Talent Acquisition; Workforce planning, vacancy requisition, job description, candidate, shortlist, Emiratisation.                                                   |
| Objective                 | Define workforce needs and attract qualified candidates in a fair, transparent and legally compliant manner.                                                                         |
| Scope                     | All permanent, temporary, part-time and contractual roles; the governing framework differs by sector.                                                                                |
| Definitions               | Workforce planning, vacancy requisition, job description, candidate, shortlist, Emiratisation.                                                                                       |
| Responsibilities          | Requesting department confirms the need; HR manages the process; the line manager assesses technical fit; Legal reviews sensitive terms.                                             |
| Procedure                 | Start with a documented vacancy request, update the job description, set the salary range, advertise, receive applications, screen, interview, verify documents and issue the offer. |
| Forms                     | Vacancy requisition, job description, screening matrix, interview record, hiring approval.                                                                                           |
| Best Practice             | Use standard criteria, keep rejection reasons, separate requester and approver roles, and factor Emiratisation obligations where applicable.                                         |
| Legal/Standard References | SRC-01; SRC-02; SRC-03; SRC-25                                                                                                                                                       |

AI retrieval prompt example: What is the procedure for Recruitment and Talent Acquisition? The answer should identify the sector first, then the procedure, then the source references listed above.

### HR-02 - Job Advertising

| Field            | Content                                                                                                                                      |
|------------------|----------------------------------------------------------------------------------------------------------------------------------------------|
| Policy ID        | HR-02                                                                                                                                        |
| Keywords         | Job Advertising; Internal posting, external posting, essential requirement, preferred requirement, mandatory requirement.                    |
| Objective        | Ensure job postings are accurate, non-discriminatory and reflect actual role requirements.                                                   |
| Scope            | All internal and external job advertisements across job boards, LinkedIn, government portals and agencies.                                   |
| Definitions      | Internal posting, external posting, essential requirement, preferred requirement, mandatory requirement.                                     |
| Responsibilities | HR drafts the advertisement; the requesting department approves technical requirements; employer branding reviews language and presentation. |

|                           |                                                                                                                                                                           |
|---------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Procedure                 | Review the job description, keep only genuine essential requirements, state work location, contract type, application method, closing date and equal opportunity wording. |
| Forms                     | Job advert template, advert approval form, publishing log.                                                                                                                |
| Best Practice             | Avoid criteria that may be discriminatory unless legally justified or part of a lawful Emiratisation requirement.                                                         |
| Legal/Standard References | SRC-01; SRC-02; SRC-11; SRC-25                                                                                                                                            |

AI retrieval prompt example: What is the procedure for Job Advertising? The answer should identify the sector first, then the procedure, then the source references listed above.

### HR-03 - Interviews and Selection

| Field                     | Content                                                                                                                   |
|---------------------------|---------------------------------------------------------------------------------------------------------------------------|
| Policy ID                 | HR-03                                                                                                                     |
| Keywords                  | Interviews and Selection; Behavioural interview, technical interview, competency test, panel conflict of interest.        |
| Objective                 | Select the most suitable candidate based on competence, experience, professional behaviour and role fit.                  |
| Scope                     | All pre-employment interviews, assessments and testing.                                                                   |
| Definitions               | Behavioural interview, technical interview, competency test, panel conflict of interest.                                  |
| Responsibilities          | Interview panel follows approved questions; HR documents results; line manager recommends; authorised signatory approves. |
| Procedure                 | Use job-related questions, score each criterion, require conflict-of-interest declarations and retain interview records.  |
| Forms                     | Interview form, conflict declaration, scoring matrix, recommendation report.                                              |
| Best Practice             | Do not ask for unrelated personal data; do not use AI screening without human review and documented decision criteria.    |
| Legal/Standard References | SRC-01; SRC-13; SRC-16; SRC-25                                                                                            |

AI retrieval prompt example: What is the procedure for Interviews and Selection? The answer should identify the sector first, then the procedure, then the source references listed above.

### HR-04 - Offers and Appointment

| Field                     | Content                                                                                                                                                                                         |
|---------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Policy ID                 | HR-04                                                                                                                                                                                           |
| Keywords                  | Offers and Appointment; Offer letter, acceptance, fixed-term contract, appointment decision, joining.                                                                                           |
| Objective                 | Convert the selection decision into a clear legal offer and then an employment contract or appointment decision.                                                                                |
| Scope                     | All new employees in private, government and semi-government settings.                                                                                                                          |
| Definitions               | Offer letter, acceptance, fixed-term contract, appointment decision, joining.                                                                                                                   |
| Responsibilities          | HR issues the offer; Finance confirms budget; Legal reviews exceptional clauses; authorised signatory approves.                                                                                 |
| Procedure                 | Issue an offer covering title, salary, allowances, benefits, location, probation and conditions precedent. After acceptance, execute the contract or appointment decision and complete permits. |
| Forms                     | Offer letter, employment contract, document checklist, joining form, policy acknowledgement.                                                                                                    |
| Best Practice             | Do not allow work to start before required permits in the private sector; do not promise unapproved benefits.                                                                                   |
| Legal/Standard References | SRC-01; SRC-02; SRC-03; SRC-07                                                                                                                                                                  |

AI retrieval prompt example: What is the procedure for Offers and Appointment? The answer should identify the sector first, then the procedure, then the source references listed above.

### HR-05 - Probation

| Field | Content |
|-------|---------|
|-------|---------|

|                           |                                                                                                                                            |
|---------------------------|--------------------------------------------------------------------------------------------------------------------------------------------|
| Policy ID                 | HR-05                                                                                                                                      |
| Keywords                  | Probation; Probation, confirmation, extension, probation termination notice.                                                               |
| Objective                 | Assess the employee's suitability within a defined period while protecting both parties' rights.                                           |
| Scope                     | New employees or employees appointed to different roles where the rules permit.                                                            |
| Definitions               | Probation, confirmation, extension, probation termination notice.                                                                          |
| Responsibilities          | Line manager sets probation goals; HR monitors reviews; authorised decision-maker confirms or terminates.                                  |
| Procedure                 | Set 30/60/90 day objectives, document feedback, provide coaching and issue confirmation or termination based on legal notice requirements. |
| Forms                     | Probation plan, probation assessment, confirmation letter, termination notice.                                                             |
| Best Practice             | Do not use probation as a substitute for training or as an arbitrary termination tool; base decisions on evidence.                         |
| Legal/Standard References | SRC-01; SRC-02; SRC-03; SRC-06                                                                                                             |

AI retrieval prompt example: What is the procedure for Probation? The answer should identify the sector first, then the procedure, then the source references listed above.

## HR-06 - Employee Files and Records

| Field                     | Content                                                                                                                                                  |
|---------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------|
| Policy ID                 | HR-06                                                                                                                                                    |
| Keywords                  | Employee Files and Records; Employee file, personal data, official document, retention period, access right.                                             |
| Objective                 | Create reliable employee records supporting compliance, audit and privacy.                                                                               |
| Scope                     | All paper and electronic employee data and documents.                                                                                                    |
| Definitions               | Employee file, personal data, official document, retention period, access right.                                                                         |
| Responsibilities          | HR owns the record; IT secures systems; managers access only what is needed; employees update their data.                                                |
| Procedure                 | Collect only necessary documents, classify them, restrict access, log changes, review file completeness and archive/delete according to retention rules. |
| Forms                     | File checklist, data update form, access log, retention register.                                                                                        |
| Best Practice             | Apply data minimisation and classify files as identity, contract, payroll, performance, leave, investigation and training records.                       |
| Legal/Standard References | SRC-02; SRC-16; SRC-18                                                                                                                                   |

AI retrieval prompt example: What is the procedure for Employee Files and Records? The answer should identify the sector first, then the procedure, then the source references listed above.

## HR-07 - Employment Contracts and Work Models

| Field            | Content                                                                                                                               |
|------------------|---------------------------------------------------------------------------------------------------------------------------------------|
| Policy ID        | HR-07                                                                                                                                 |
| Keywords         | Employment Contracts and Work Models; Fixed-term contract, part-time work, temporary work, flexible work, remote work, outsourcing.   |
| Objective        | Ensure the employment relationship is clear, understood and aligned with law or government appointment rules.                         |
| Scope            | Private contracts, government decisions, full-time, part-time, temporary, flexible and remote work.                                   |
| Definitions      | Fixed-term contract, part-time work, temporary work, flexible work, remote work, outsourcing.                                         |
| Responsibilities | Legal reviews templates; HR implements; the requesting department defines the need; the employee acknowledges terms.                  |
| Procedure        | Use approved templates, include wage, hours, leave and notice, and review non-compete, confidentiality and IP clauses before signing. |
| Forms            | Employment contract, contract addendum, appointment decision, work model form.                                                        |
| Best Practice    | Do not misclassify employees as independent contractors; control,                                                                     |

|                           |                                         |
|---------------------------|-----------------------------------------|
|                           | subordination and working hours matter. |
| Legal/Standard References | SRC-01; SRC-02; SRC-03; SRC-09          |

AI retrieval prompt example: What is the procedure for Employment Contracts and Work Models? The answer should identify the sector first, then the procedure, then the source references listed above.

## HR-08 - Working Time and Attendance

| Field                     | Content                                                                                                                    |
|---------------------------|----------------------------------------------------------------------------------------------------------------------------|
| Policy ID                 | HR-08                                                                                                                      |
| Keywords                  | Working Time and Attendance; Working hours, weekly rest, attendance, lateness, shift, overtime.                            |
| Objective                 | Manage working time fairly and auditable while protecting productivity and rights.                                         |
| Scope                     | All employees, with specific controls for shifts, field work and flexible work.                                            |
| Definitions               | Working hours, weekly rest, attendance, lateness, shift, overtime.                                                         |
| Responsibilities          | HR sets policy; managers approve schedules and exceptions; employees record time accurately.                               |
| Procedure                 | Define official hours, recording method, adjustments, exceptions, lateness and overtime, then monitor via monthly reports. |
| Forms                     | Attendance record, overtime request, shift roster, lateness report.                                                        |
| Best Practice             | For Dubai Government, check weekly working system rules; for private sector, apply working hours, rest and overtime rules. |
| Legal/Standard References | SRC-01; SRC-02; SRC-03; SRC-23                                                                                             |

AI retrieval prompt example: What is the procedure for Working Time and Attendance? The answer should identify the sector first, then the procedure, then the source references listed above.

## HR-09 - Remote and Flexible Work

| Field                     | Content                                                                                                                         |
|---------------------------|---------------------------------------------------------------------------------------------------------------------------------|
| Policy ID                 | HR-09                                                                                                                           |
| Keywords                  | Remote and Flexible Work; Remote work, hybrid work, flexible hours, alternative workplace, KPIs.                                |
| Objective                 | Enable operational flexibility without compromising security, confidentiality or performance.                                   |
| Scope                     | Roles suitable for remote or flexible work, subject to business approval.                                                       |
| Definitions               | Remote work, hybrid work, flexible hours, alternative workplace, KPIs.                                                          |
| Responsibilities          | Manager assesses role suitability; HR approves; IT provides secure access; employee maintains confidentiality and productivity. |
| Procedure                 | Assess suitability, define days/hours and outputs, enable VPN/MFA, document approval and review performance periodically.       |
| Forms                     | Remote work request, flexible work agreement, equipment checklist, information security acknowledgement.                        |
| Best Practice             | Approve based on measurable outputs, not virtual presence; do not allow sensitive data on unmanaged personal devices.           |
| Legal/Standard References | SRC-09; SRC-16; SRC-17; SRC-18; SRC-23                                                                                          |

AI retrieval prompt example: What is the procedure for Remote and Flexible Work? The answer should identify the sector first, then the procedure, then the source references listed above.

## HR-10 - Leave Management

| Field     | Content                                                                                                            |
|-----------|--------------------------------------------------------------------------------------------------------------------|
| Policy ID | HR-10                                                                                                              |
| Keywords  | Leave Management; Leave balance, entitlement, carry-forward, leave encashment, medical certificate, special leave. |
| Objective | Regulate leave in a way that balances employee entitlement and business continuity.                                |
| Scope     | Annual, sick, maternity, parental, bereavement, study, Hajj, public holidays, unpaid and other applicable leaves.  |

|                           |                                                                                                                                  |
|---------------------------|----------------------------------------------------------------------------------------------------------------------------------|
| Definitions               | Leave balance, entitlement, carry-forward, leave encashment, medical certificate, special leave.                                 |
| Responsibilities          | Employee submits request; manager approves based on work needs; HR verifies balance and law; payroll processes financial impact. |
| Procedure                 | Receive request, verify balance and documents, assess business impact, approve/refuse with reason and record in the system.      |
| Forms                     | Leave request, medical certificate, balance report, return-to-work form.                                                         |
| Best Practice             | Write rules by sector: private sector follows UAE Labour Law; Dubai Government follows Dubai HR Law and related resolutions.     |
| Legal/Standard References | SRC-01; SRC-02; SRC-03; SRC-23                                                                                                   |

AI retrieval prompt example: What is the procedure for Leave Management? The answer should identify the sector first, then the procedure, then the source references listed above.

## HR-11 - Payroll and Wage Protection

| Field                     | Content                                                                                                                                     |
|---------------------------|---------------------------------------------------------------------------------------------------------------------------------------------|
| Policy ID                 | HR-11                                                                                                                                       |
| Keywords                  | Payroll and Wage Protection; Basic wage, gross wage, allowance, deduction, WPS, payslip.                                                    |
| Objective                 | Ensure salaries are paid on time through auditable and compliant processes, including WPS where applicable.                                 |
| Scope                     | Basic salary, variable pay, allowances and deductions.                                                                                      |
| Definitions               | Basic wage, gross wage, allowance, deduction, WPS, payslip.                                                                                 |
| Responsibilities          | Payroll prepares payroll run; HR approves changes; Finance executes payment; management reviews exceptions.                                 |
| Procedure                 | Close monthly changes, verify attendance and leave, validate allowances/deductions, pay through approved channels and keep payroll records. |
| Forms                     | Payroll register, payslip, salary change form, deduction authorisation.                                                                     |
| Best Practice             | Separate duties between data entry, review and payment; issue clear payslips to employees.                                                  |
| Legal/Standard References | SRC-01; SRC-02; SRC-07; SRC-19                                                                                                              |

AI retrieval prompt example: What is the procedure for Payroll and Wage Protection? The answer should identify the sector first, then the procedure, then the source references listed above.

## HR-12 - Allowances, Benefits, Bonuses and Incentives

| Field                     | Content                                                                                                                     |
|---------------------------|-----------------------------------------------------------------------------------------------------------------------------|
| Policy ID                 | HR-12                                                                                                                       |
| Keywords                  | Allowances, Benefits, Bonuses and Incentives; Allowance, benefit, performance bonus, incentive, increment, non-duplication. |
| Objective                 | Manage benefits fairly, within policy, budget and performance rules.                                                        |
| Scope                     | Housing, transport, tickets, insurance, periodic and non-periodic bonuses and incentives.                                   |
| Definitions               | Allowance, benefit, performance bonus, incentive, increment, non-duplication.                                               |
| Responsibilities          | Management defines need; HR applies eligibility; Finance confirms budget; rewards committee reviews exceptions.             |
| Procedure                 | Link each benefit to eligibility, document exception approvals, check non-duplication and review internal equity.           |
| Forms                     | Allowance request, bonus approval, benefits register, insurance record.                                                     |
| Best Practice             | Do not make bonuses an acquired right unless the contract/policy says so; link incentives to measurable indicators.         |
| Legal/Standard References | SRC-01; SRC-03; SRC-07; SRC-08; SRC-19                                                                                      |

AI retrieval prompt example: What is the procedure for Allowances, Benefits, Bonuses and Incentives? The answer should identify the sector first, then the procedure, then the source references listed above.

## HR-13 - Promotion, Transfer and Secondment

| Field                     | Content                                                                                                                                    |
|---------------------------|--------------------------------------------------------------------------------------------------------------------------------------------|
| Policy ID                 | HR-13                                                                                                                                      |
| Keywords                  | Promotion, Transfer and Secondment; Promotion, transfer, secondment, deputation, vacancy, existing rights.                                 |
| Objective                 | Manage employee mobility fairly and in support of business needs and development.                                                          |
| Scope                     | Job promotion, financial promotion, internal transfer, inter-entity transfer, secondment/deputation.                                       |
| Definitions               | Promotion, transfer, secondment, deputation, vacancy, existing rights.                                                                     |
| Responsibilities          | HR verifies conditions; managers assess readiness; authorised signatory approves; Finance processes impact.                                |
| Procedure                 | Identify role and budget, assess candidate, verify performance/discipline, protect existing rights on transfer and issue decision/addenda. |
| Forms                     | Promotion request, transfer request, secondment agreement, administrative decision.                                                        |
| Best Practice             | Use a committee for sensitive promotions and connect transfers to handover plans.                                                          |
| Legal/Standard References | SRC-03; SRC-06; SRC-07; SRC-11                                                                                                             |

AI retrieval prompt example: What is the procedure for Promotion, Transfer and Secondment? The answer should identify the sector first, then the procedure, then the source references listed above.

## HR-14 - Learning and Development

| Field                     | Content                                                                                                                                           |
|---------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------|
| Policy ID                 | HR-14                                                                                                                                             |
| Keywords                  | Learning and Development; Training need, individual development plan, training ROI, competency.                                                   |
| Objective                 | Build employee capability based on performance gaps and institutional needs.                                                                      |
| Scope                     | Internal/external training, certifications, e-learning, coaching and mentoring.                                                                   |
| Definitions               | Training need, individual development plan, training ROI, competency.                                                                             |
| Responsibilities          | HR gathers needs and plans; manager identifies gaps; employee applies learning; Finance approves budget.                                          |
| Procedure                 | Extract needs from performance appraisal, build annual plan, select qualified providers, deliver learning and measure impact after 30/60/90 days. |
| Forms                     | Training request, development plan, course evaluation, impact report.                                                                             |
| Best Practice             | Measure training by behaviour and performance improvement, not attendance only.                                                                   |
| Legal/Standard References | SRC-06; SRC-10; SRC-26; SRC-27                                                                                                                    |

AI retrieval prompt example: What is the procedure for Learning and Development? The answer should identify the sector first, then the procedure, then the source references listed above.

## HR-15 - Performance Management

| Field            | Content                                                                                                          |
|------------------|------------------------------------------------------------------------------------------------------------------|
| Policy ID        | HR-15                                                                                                            |
| Keywords         | Performance Management; SMART objective, behavioural competency, mid-year review, final appraisal, calibration.  |
| Objective        | Link individual objectives to institutional strategy and provide fair feedback.                                  |
| Scope            | All employees covered by a performance system, subject to sector-specific exclusions.                            |
| Definitions      | SMART objective, behavioural competency, mid-year review, final appraisal, calibration.                          |
| Responsibilities | Employee and manager set objectives; manager reviews; HR administers; calibration committee ensures consistency. |

|                           |                                                                                                                                                             |
|---------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Procedure                 | Set annual goals, conduct interim review, document achievements, rate results and competencies, calibrate ratings and link outcomes to development/rewards. |
| Forms                     | Objectives form, mid-year review, final appraisal, PIP.                                                                                                     |
| Best Practice             | Use objective evidence and avoid recency bias; appraisal should not be an end-year surprise.                                                                |
| Legal/Standard References | SRC-06; SRC-08; SRC-24                                                                                                                                      |

AI retrieval prompt example: What is the procedure for Performance Management? The answer should identify the sector first, then the procedure, then the source references listed above.

## HR-16 - Talent Management and Succession

| Field                     | Content                                                                                                                                |
|---------------------------|----------------------------------------------------------------------------------------------------------------------------------------|
| Policy ID                 | HR-16                                                                                                                                  |
| Keywords                  | Talent Management and Succession; Critical position, potential successor, readiness, knowledge-loss risk.                              |
| Objective                 | Identify critical talent and prepare successors for key positions.                                                                     |
| Scope                     | Critical roles, leadership roles, scarce specialisations and replacement planning.                                                     |
| Definitions               | Critical position, potential successor, readiness, knowledge-loss risk.                                                                |
| Responsibilities          | Senior management identifies critical roles; HR manages methodology; managers nominate; talent committee approves.                     |
| Procedure                 | Identify critical positions, assess performance and potential, build development plans, monitor readiness and update every six months. |
| Forms                     | 9-box matrix, succession plan, leadership development plan, talent risk register.                                                      |
| Best Practice             | Separate succession nomination from promotion promises; confidentiality and fairness are essential.                                    |
| Legal/Standard References | SRC-06; SRC-10; SRC-12; SRC-24                                                                                                         |

AI retrieval prompt example: What is the procedure for Talent Management and Succession? The answer should identify the sector first, then the procedure, then the source references listed above.

## HR-17 - Discipline, Investigations and Penalties

| Field                     | Content                                                                                                                                               |
|---------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------|
| Policy ID                 | HR-17                                                                                                                                                 |
| Keywords                  | Discipline, Investigations and Penalties; Violation, investigation, warning, penalty, progression, right to respond, grievance.                       |
| Objective                 | Handle misconduct fairly through documented procedures and appropriate investigation before penalty.                                                  |
| Scope                     | Conduct, work, attendance, confidentiality, security and systems-use breaches.                                                                        |
| Definitions               | Violation, investigation, warning, penalty, progression, right to respond, grievance.                                                                 |
| Responsibilities          | Manager reports; HR investigates or coordinates; Legal reviews serious cases; authorised decision-maker decides.                                      |
| Procedure                 | Receive report, preserve evidence, notify employee, hear response, document findings, recommend proportionate penalty and inform of grievance rights. |
| Forms                     | Violation report, investigation minutes, warning, penalty decision, grievance record.                                                                 |
| Best Practice             | Respect confidentiality and presumption of innocence; do not impose a penalty without evidence and opportunity to respond.                            |
| Legal/Standard References | SRC-01; SRC-02; SRC-14; SRC-15                                                                                                                        |

AI retrieval prompt example: What is the procedure for Discipline, Investigations and Penalties? The answer should identify the sector first, then the procedure, then the source references listed above.

## HR-18 - Termination, Resignation and Dismissal

| Field                     | Content                                                                                                                           |
|---------------------------|-----------------------------------------------------------------------------------------------------------------------------------|
| Policy ID                 | HR-18                                                                                                                             |
| Keywords                  | Termination, Resignation and Dismissal; Notice, last working day, final settlement, service certificate, exit interview.          |
| Objective                 | End employment lawfully while preserving rights and reducing disputes.                                                            |
| Scope                     | Resignation, contract expiry, dismissal, medical unfitness, economic termination, retirement and death.                           |
| Definitions               | Notice, last working day, final settlement, service certificate, exit interview.                                                  |
| Responsibilities          | Manager coordinates handover; HR verifies reason and notice; Finance prepares settlement; IT removes access.                      |
| Procedure                 | Review reason, verify notice, calculate dues, recover assets, close access, issue service certificate and conduct exit interview. |
| Forms                     | Resignation, termination notice, clearance, service certificate, exit interview.                                                  |
| Best Practice             | Do not use termination as a substitute for investigation; keep the reason documented and legally consistent.                      |
| Legal/Standard References | SRC-01; SRC-02; SRC-03; SRC-22                                                                                                    |

AI retrieval prompt example: What is the procedure for Termination, Resignation and Dismissal? The answer should identify the sector first, then the procedure, then the source references listed above.

## HR-19 - End-of-Service Benefits and Pensions

| Field                     | Content                                                                                                                                     |
|---------------------------|---------------------------------------------------------------------------------------------------------------------------------------------|
| Policy ID                 | HR-19                                                                                                                                       |
| Keywords                  | End-of-Service Benefits and Pensions; End-of-service gratuity, pension, contribution, basic wage, continuous service.                       |
| Objective                 | Calculate EOSB or pension rights by sector, nationality and contract type.                                                                  |
| Scope                     | Private sector workers, government employees and nationals subject to pension schemes.                                                      |
| Definitions               | End-of-service gratuity, pension, contribution, basic wage, continuous service.                                                             |
| Responsibilities          | HR provides service data; payroll calculates; Finance pays; Legal reviews disputes.                                                         |
| Procedure                 | Identify employee type and sector, service period, termination reason, applicable wage, deductions and issue detailed settlement statement. |
| Forms                     | Calculation sheet, service statement, clearance, retirement notice.                                                                         |
| Best Practice             | Distinguish expatriate gratuity from national pension; do not rely on automated calculations without human review.                          |
| Legal/Standard References | SRC-01; SRC-02; SRC-03; SRC-22                                                                                                              |

AI retrieval prompt example: What is the procedure for End-of-Service Benefits and Pensions? The answer should identify the sector first, then the procedure, then the source references listed above.

## HR-20 - Occupational Health and Safety

| Field            | Content                                                                                                                                |
|------------------|----------------------------------------------------------------------------------------------------------------------------------------|
| Policy ID        | HR-20                                                                                                                                  |
| Keywords         | Occupational Health and Safety; Hazard, risk assessment, incident, work injury, occupational disease, PPE.                             |
| Objective        | Provide a safe and healthy workplace and prevent injuries and occupational diseases.                                                   |
| Scope            | Offices, sites, warehouses, vehicles, field work and labour accommodation where applicable.                                            |
| Definitions      | Hazard, risk assessment, incident, work injury, occupational disease, PPE.                                                             |
| Responsibilities | Management provides safe environment; safety officer monitors; employee follows instructions; HR links safety to training and records. |
| Procedure        | Conduct risk assessment, establish emergency procedures, train                                                                         |

|                           |                                                                                       |
|---------------------------|---------------------------------------------------------------------------------------|
|                           | employees, provide PPE, record incidents and investigate root causes.                 |
| Forms                     | Incident form, risk assessment, safety training log, permit to work.                  |
| Best Practice             | Use leading indicators such as near misses and training, not only recorded accidents. |
| Legal/Standard References | SRC-01; SRC-20; SRC-21                                                                |

AI retrieval prompt example: What is the procedure for Occupational Health and Safety? The answer should identify the sector first, then the procedure, then the source references listed above.

## HR-21 - Diversity, Inclusion, Anti-Discrimination and Harassment

| Field                     | Content                                                                                                                                                   |
|---------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------|
| Policy ID                 | HR-21                                                                                                                                                     |
| Keywords                  | Diversity, Inclusion, Anti-Discrimination and Harassment; Discrimination, harassment, bullying, retaliation, equal opportunity, reasonable accommodation. |
| Objective                 | Protect the workplace from discrimination, harassment and abuse while promoting equal opportunity.                                                        |
| Scope                     | All employment stages from job advertising to termination.                                                                                                |
| Definitions               | Discrimination, harassment, bullying, retaliation, equal opportunity, reasonable accommodation.                                                           |
| Responsibilities          | Senior management sponsors culture; HR receives reports; managers prevent misconduct; employees report in good faith.                                     |
| Procedure                 | Publish policy, train employees, provide safe reporting channels, investigate confidentially, protect against retaliation and apply corrective action.    |
| Forms                     | Harassment report, investigation, corrective plan, training record.                                                                                       |
| Best Practice             | Use practical examples and leadership behaviour, not only policy wording.                                                                                 |
| Legal/Standard References | SRC-01; SRC-13; SRC-14; SRC-16                                                                                                                            |

AI retrieval prompt example: What is the procedure for Diversity, Inclusion, Anti-Discrimination and Harassment? The answer should identify the sector first, then the procedure, then the source references listed above.

## HR-22 - Data Protection and Confidentiality

| Field                     | Content                                                                                                                                                   |
|---------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------|
| Policy ID                 | HR-22                                                                                                                                                     |
| Keywords                  | Data Protection and Confidentiality; Personal data, sensitive data, confidentiality, processing, consent, data subject.                                   |
| Objective                 | Protect employee, customer and institutional data from unauthorised access or disclosure.                                                                 |
| Scope                     | All paper and digital data processed by employees, systems or service providers.                                                                          |
| Definitions               | Personal data, sensitive data, confidentiality, processing, consent, data subject.                                                                        |
| Responsibilities          | Data owner defines purpose; HR processes employee data; IT secures systems; employees maintain confidentiality.                                           |
| Procedure                 | Define lawful purpose, minimise data, classify information, restrict access, sign confidentiality acknowledgements, monitor sharing and report incidents. |
| Forms                     | Confidentiality acknowledgement, processing register, access request, data incident log.                                                                  |
| Best Practice             | Do not store employee files in open shared spaces; use clear retention and deletion rules.                                                                |
| Legal/Standard References | SRC-16; SRC-17; SRC-18                                                                                                                                    |

AI retrieval prompt example: What is the procedure for Data Protection and Confidentiality? The answer should identify the sector first, then the procedure, then the source references listed above.

## HR-23 - Conflict of Interest and Work Ethics

| Field | Content |
|-------|---------|
|-------|---------|

|                           |                                                                                                                                      |
|---------------------------|--------------------------------------------------------------------------------------------------------------------------------------|
| Policy ID                 | HR-23                                                                                                                                |
| Keywords                  | Conflict of Interest and Work Ethics; Actual conflict, potential conflict, gift, benefit, private work, disclosure.                  |
| Objective                 | Ensure decisions are made in the institution's interest, not for personal, family or commercial benefit.                             |
| Scope                     | Procurement, recruitment, appraisal, promotions, supplier relationships, gifts and outside work.                                     |
| Definitions               | Actual conflict, potential conflict, gift, benefit, private work, disclosure.                                                        |
| Responsibilities          | Employee discloses; manager assesses; HR maintains register; compliance recommends recusal or controls.                              |
| Procedure                 | Require annual disclosure, evaluate before decision participation, document action: allow, prohibit, recuse or conditional approval. |
| Forms                     | Disclosure form, gift register, outside work approval, ethics undertaking.                                                           |
| Best Practice             | Address potential conflicts early and document rationale.                                                                            |
| Legal/Standard References | SRC-03; SRC-13; SRC-14                                                                                                               |

AI retrieval prompt example: What is the procedure for Conflict of Interest and Work Ethics? The answer should identify the sector first, then the procedure, then the source references listed above.

## HR-24 - Email, Internet and Systems Use

| Field                     | Content                                                                                                                  |
|---------------------------|--------------------------------------------------------------------------------------------------------------------------|
| Policy ID                 | HR-24                                                                                                                    |
| Keywords                  | Email, Internet and Systems Use; Acceptable use, corporate account, monitoring, phishing, unlicensed software.           |
| Objective                 | Regulate use of institutional assets and systems in a safe and professional manner.                                      |
| Scope                     | Email, internet, devices, accounts, cloud tools, social media and business applications.                                 |
| Definitions               | Acceptable use, corporate account, monitoring, phishing, unlicensed software.                                            |
| Responsibilities          | IT defines controls; HR connects breaches to discipline; employees use systems for lawful work purposes.                 |
| Procedure                 | Grant accounts by role, enable MFA, prohibit password sharing, monitor within law and policy and train against phishing. |
| Forms                     | Acceptable use acknowledgement, access request, security incident report, device handover log.                           |
| Best Practice             | State clearly that systems are for business use and monitoring occurs within law, policy and security necessity.         |
| Legal/Standard References | SRC-13; SRC-16; SRC-17; SRC-18                                                                                           |

AI retrieval prompt example: What is the procedure for Email, Internet and Systems Use? The answer should identify the sector first, then the procedure, then the source references listed above.

## HR-25 - Use of AI at Work

| Field            | Content                                                                                                                                          |
|------------------|--------------------------------------------------------------------------------------------------------------------------------------------------|
| Policy ID        | HR-25                                                                                                                                            |
| Keywords         | Use of AI at Work; AI, language model, automated decision, human review, training data, hallucination, bias.                                     |
| Objective        | Enable AI use safely and transparently while protecting confidentiality, fairness and decision quality.                                          |
| Scope            | Writing, analytics, screening, internal support, chatbots and HR automation.                                                                     |
| Definitions      | AI, language model, automated decision, human review, training data, hallucination, bias.                                                        |
| Responsibilities | Business owner approves use cases; IT secures tools; HR reviews workforce impact; user verifies outputs.                                         |
| Procedure        | Classify use case, prohibit confidential data in public tools, assess bias risk, keep sensitive decisions under human review and record sources. |
| Forms            | AI use request, impact assessment, AI tools register, user acknowledgement.                                                                      |
| Best Practice    | Do not let AI make final recruitment, discipline or appraisal                                                                                    |

|                           |                                                              |
|---------------------------|--------------------------------------------------------------|
|                           | decisions without documented human review and appeal rights. |
| Legal/Standard References | SRC-16; SRC-17; SRC-18; SRC-26; SRC-27                       |

AI retrieval prompt example: What is the procedure for Use of AI at Work? The answer should identify the sector first, then the procedure, then the source references listed above.

## HR-26 - Employee Cybersecurity

| Field                     | Content                                                                                                              |
|---------------------------|----------------------------------------------------------------------------------------------------------------------|
| Policy ID                 | HR-26                                                                                                                |
| Keywords                  | Employee Cybersecurity; MFA, least privilege, phishing, managed device, remote access, security incident.            |
| Objective                 | Reduce breach risks caused by user behaviour or weak access control.                                                 |
| Scope                     | All employees, contractors and suppliers with access to systems.                                                     |
| Definitions               | MFA, least privilege, phishing, managed device, remote access, security incident.                                    |
| Responsibilities          | IT manages controls; HR embeds security in onboarding; managers report role changes; employees comply.               |
| Procedure                 | Screen new joiners, deliver training, review access quarterly, close accounts on exit and operate incident response. |
| Forms                     | Access matrix, security training log, VPN request, access revocation form.                                           |
| Best Practice             | Connect access lifecycle to employee lifecycle: joining, transfer, promotion and exit.                               |
| Legal/Standard References | SRC-16; SRC-17; SRC-18                                                                                               |

AI retrieval prompt example: What is the procedure for Employee Cybersecurity? The answer should identify the sector first, then the procedure, then the source references listed above.

## HR-27 - Complaints and Grievances

| Field                     | Content                                                                                                                            |
|---------------------------|------------------------------------------------------------------------------------------------------------------------------------|
| Policy ID                 | HR-27                                                                                                                              |
| Keywords                  | Complaints and Grievances; Complaint, grievance, statutory period, committee, decision, escalation.                                |
| Objective                 | Provide a fair and confidential channel for complaints and grievances without retaliation.                                         |
| Scope                     | Administrative and behavioural complaints, grievance against penalties, appraisals and employment rights.                          |
| Definitions               | Complaint, grievance, statutory period, committee, decision, escalation.                                                           |
| Responsibilities          | Employee submits; HR registers; committee reviews; authorised decision-maker issues decision; management implements.               |
| Procedure                 | Receive complaint, check admissibility and timeline, collect documents, hear parties, issue reasoned decision and inform employee. |
| Forms                     | Complaint form, grievance form, hearing minutes, committee decision.                                                               |
| Best Practice             | Provide an independent channel for sensitive cases; do not allow the manager complained against to run the investigation.          |
| Legal/Standard References | SRC-01; SRC-02; SRC-14; SRC-15                                                                                                     |

AI retrieval prompt example: What is the procedure for Complaints and Grievances? The answer should identify the sector first, then the procedure, then the source references listed above.

## HR-28 - People Risk Management

| Field     | Content                                                                                    |
|-----------|--------------------------------------------------------------------------------------------|
| Policy ID | HR-28                                                                                      |
| Keywords  | People Risk Management; People risk, likelihood, impact, control, early warning indicator. |
| Objective | Identify HR risks affecting compliance, operations and reputation.                         |
| Scope     | Turnover, absence, talent loss, disputes, compliance, H&S, conduct                         |

|                           |                                                                                                                                                     |
|---------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------|
|                           | and security.                                                                                                                                       |
| Definitions               | People risk, likelihood, impact, control, early warning indicator.                                                                                  |
| Responsibilities          | HR leads the register; departments own risks; audit reviews; senior management approves appetite and controls.                                      |
| Procedure                 | Identify risks, assess likelihood/impact, assign owner, define controls and monitor indicators such as turnover, absence, complaints and incidents. |
| Forms                     | Risk register, treatment plan, indicators report, incident log.                                                                                     |
| Best Practice             | Turn HR into an early warning system for performance, compliance and reputation.                                                                    |
| Legal/Standard References | SRC-24; SRC-26; SRC-27                                                                                                                              |

AI retrieval prompt example: What is the procedure for People Risk Management? The answer should identify the sector first, then the procedure, then the source references listed above.

## HR-29 - Business Continuity and HR

| Field                     | Content                                                                                                                        |
|---------------------------|--------------------------------------------------------------------------------------------------------------------------------|
| Policy ID                 | HR-29                                                                                                                          |
| Keywords                  | Business Continuity and HR; BCP, critical role, alternate, emergency remote work, crisis communication.                        |
| Objective                 | Ensure essential services continue during disruption while protecting employees.                                               |
| Scope                     | Pandemics, disasters, technology outages, site loss and workforce shortages.                                                   |
| Definitions               | BCP, critical role, alternate, emergency remote work, crisis communication.                                                    |
| Responsibilities          | Senior management sets priorities; HR manages contacts and alternates; IT supports access; managers execute plans.             |
| Procedure                 | Identify critical roles, prepare backups, enable remote work, test communications, review shifts and document lessons learned. |
| Forms                     | BCP, contact tree, backup roster, test report.                                                                                 |
| Best Practice             | Connect BCP with succession, cybersecurity and OHS rather than keeping it as a standalone paper plan.                          |
| Legal/Standard References | SRC-09; SRC-12; SRC-18; SRC-24                                                                                                 |

AI retrieval prompt example: What is the procedure for Business Continuity and HR? The answer should identify the sector first, then the procedure, then the source references listed above.

## HR-30 - Health Insurance and Medical Care

| Field                     | Content                                                                                                                   |
|---------------------------|---------------------------------------------------------------------------------------------------------------------------|
| Policy ID                 | HR-30                                                                                                                     |
| Keywords                  | Health Insurance and Medical Care; Health insurance, insurance card, claim, work injury, wellbeing.                       |
| Objective                 | Ensure required medical coverage and support employee wellbeing.                                                          |
| Scope                     | Employees and eligible family members, based on sector, contract and local rules.                                         |
| Definitions               | Health insurance, insurance card, claim, work injury, wellbeing.                                                          |
| Responsibilities          | HR enrolls employees; Finance pays premiums; employee submits documents; insurer handles claims.                          |
| Procedure                 | Enroll employee, explain coverage and exclusions, process additions/deletions and link work injuries to safety reporting. |
| Forms                     | Insurance request, member addition/deletion, claim, injury report.                                                        |
| Best Practice             | Treat medical data as highly sensitive and restrict it to need-to-know access.                                            |
| Legal/Standard References | SRC-16; SRC-20; SRC-21                                                                                                    |

AI retrieval prompt example: What is the procedure for Health Insurance and Medical Care? The answer should identify the sector first, then the procedure, then the source references listed above.

## HR-31 - Emiratization and Labour-Market Compliance

| Field                     | Content                                                                                                                               |
|---------------------------|---------------------------------------------------------------------------------------------------------------------------------------|
| Policy ID                 | HR-31                                                                                                                                 |
| Keywords                  | Emiratization and Labour-Market Compliance; Emiratization, work permit, target rate, establishment classification, penalty/incentive. |
| Objective                 | Support Emiratization obligations and compliance with labour permits and workforce rules.                                             |
| Scope                     | Private companies subject to Emiratization and government/semi-government entities according to their plans.                          |
| Definitions               | Emiratization, work permit, target rate, establishment classification, penalty/incentive.                                             |
| Responsibilities          | Senior management sets objectives; HR plans hiring; compliance monitors duties; Finance tracks fees/incentives.                       |
| Procedure                 | Review annual obligations, build UAE national hiring pipelines, document contracts/permits and monitor MOHRE updates.                 |
| Forms                     | Emiratization plan, permit register, compliance report, national retention plan.                                                      |
| Best Practice             | Treat Emiratization as talent strategy, not only a compliance number; link it to development and career paths.                        |
| Legal/Standard References | SRC-01; SRC-02; SRC-19; SRC-22                                                                                                        |

AI retrieval prompt example: What is the procedure for Emiratization and Labour-Market Compliance? The answer should identify the sector first, then the procedure, then the source references listed above.

## HR-32 - Vendors, Contractors and External Workers

| Field                     | Content                                                                                                                                        |
|---------------------------|------------------------------------------------------------------------------------------------------------------------------------------------|
| Policy ID                 | HR-32                                                                                                                                          |
| Keywords                  | Vendors, Contractors and External Workers; Contractor, outsourcing, SLA, third-party access, shared responsibility.                            |
| Objective                 | Manage the risks of service providers and external workers operating inside the institution.                                                   |
| Scope                     | Contractors, consultants, outsourced providers, temporary labour and recruitment agencies.                                                     |
| Definitions               | Contractor, outsourcing, SLA, third-party access, shared responsibility.                                                                       |
| Responsibilities          | Contract owner monitors performance; procurement manages contract; HR checks labour compliance where workers are involved; IT controls access. |
| Procedure                 | Include confidentiality, security and safety clauses, verify permits, define scope, monitor hours/sites and revoke access at contract end.     |
| Forms                     | NDA, third-party access request, access log, supplier evaluation.                                                                              |
| Best Practice             | Do not grant permanent or broad contractor access; use time-bound accounts and least privilege.                                                |
| Legal/Standard References | SRC-01; SRC-02; SRC-16; SRC-18                                                                                                                 |

AI retrieval prompt example: What is the procedure for Vendors, Contractors and External Workers? The answer should identify the sector first, then the procedure, then the source references listed above.

## 6. Government vs Private Sector Comparison

| Topic           | Dubai Government                                                                                              | Private Sector                                                                    | Notes                                                                                                      |
|-----------------|---------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------|
| Legal framework | Dubai Government HR Law No. 8 of 2018, amendments and executive resolutions for covered entities.             | Federal UAE Labour Law No. 33 of 2021, executive regulations and MOHRE decisions. | Semi-government depends on establishing law/articles: Dubai HR Law, Labour Law or special bylaw may apply. |
| Working hours   | According to entity system; DGHR FAQ explains a 36.5-hour weekly government system with approved flexibility. | Federal law sets working hours, rest and overtime limits depending on work type.  | Shifts and exempt sectors need detailed rules.                                                             |
| Contracts       | Appointment decision or contract under Dubai HR rules.                                                        | Fixed-term employment contract with mandatory details and work permits.           | Do not use one template for all sectors.                                                                   |

|                   |                                                                                                      |                                                                                                       |                                                                                 |
|-------------------|------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------|
| Leave             | Types/durations under Dubai HR Law, bylaws and resolutions.                                          | Types/durations under Labour Law and executive regulations.                                           | Apply the governing system of the entity, not a generic “more favourable” rule. |
| Wages             | Government grades, salary tables, benefits and financial resolutions.                                | Basic/gross wage, WPS, employment contract and employer policy.                                       | WPS is central for the private sector.                                          |
| Bonuses           | Linked to performance, budget and government resolutions such as the 2026 bonus rules.               | Based on contract/policy without breaching wage entitlements.                                         | Define whether bonus is discretionary or contractual.                           |
| Promotions        | Linked to structure, grades, performance and authority matrix.                                       | Internal policy unless it affects contractual rights or discrimination.                               | Document criteria to avoid disputes.                                            |
| Insurance/Pension | Pension for nationals under GPSSA and entity rules; health insurance according to applicable system. | Health insurance according to local system; pension for UAE nationals; gratuity for most expatriates. | Expatriates generally receive EOSB instead of pension.                          |
| Termination       | Reasons/procedures under Dubai HR Law, discipline and grievance decisions.                           | Termination reasons, notice and dues under Labour Law.                                                | Access and asset closure should be standardised.                                |
| Discipline        | Government disciplinary and grievance rules.                                                         | Labour Law, executive regulations and internal work regulations.                                      | Investigation and documentation are essential in both sectors.                  |
| Performance       | Government performance system with phases and calibration.                                           | Company internal system; best practice links objectives and competencies.                             | Make appraisal non-discriminatory and auditable.                                |
| Training          | Government learning and development system with plans and responsibilities.                          | Internal policy; may be tied to safety or professional licensing.                                     | Training impact measurement is essential.                                       |
| Remote work       | Dubai telework resolution with duties, outputs and confidentiality.                                  | Allowed if addressed by policy/contract and compliant with MOHRE and security requirements.           | Security, confidentiality and data protection are common requirements.          |

## 7. Suggested Standard Forms Library

| ID   | Form                            | Category                   | Suggested Format            |

## 8. Best Practices and International Standards

| Standard/Framework  | Application in Dubai                                                                                                         | Reference              |
|---------------------|------------------------------------------------------------------------------------------------------------------------------|------------------------|
| ISO 30414:2025      | Use for human capital indicators: workforce composition, diversity, turnover, training, safety, productivity and governance. | SRC-24                 |
| ISO 30405:2016      | Use to design the recruitment journey from vacancy requisition to onboarding and quality-of-hire measurement.                | SRC-25                 |
| CIPD Profession Map | Use to define HR team capabilities, professional behaviours and the link between HR, strategy and culture.                   | SRC-26                 |
| SHRM BASK           | Use as a framework for HR competencies: leadership, ethics, analytics, relationships, talent and compliance.                 | SRC-27                 |
| AI Governance in HR | Any AI use should be documented, explainable, subject to human review and protective of personal data.                       | SRC-16; SRC-17; SRC-18 |

## 9. AI Agent Metadata Templates

chunk\_id: HR-XX  
language: en  
jurisdiction: Dubai, UAE  
sector: government | private | semi-government | free-zone | all  
policy\_name: <policy name>  
legal\_sources: [SRC-XX]  
answer\_rule: "Identify the sector, state the rule, outline the procedure, mention exceptions, cite references."  
risk\_level: low | medium | high  
requires\_legal\_review: true/false  
forms: [F-XX]  
keywords: [recruitment, contracts, leave, payroll, ...]

## 10. Use Limitations and Update Control

Update this manual when a legal amendment, ministerial/executive decision, change in entity status or free-zone procedure occurs. Quarterly review of MOHRE, DLP, UAE Legislation and DGHR sources is recommended.

For AI Agent use: do not rely solely on the agent for high-risk actions such as dismissal, investigation, termination or processing sensitive data without human legal review.
